

TRANSITION FROM ARCHWAY

VOL. 1

DRIVELINE

It's time to retire those Archway driveline placards! After the final bell rings, Prep students are dismissed from class and are free to meet you at a location of your choosing - No more waiting for their numbers to be called. Many students meet their families in the Prep driveline, while others walk home or head to afterschool sports and activities.

If you have an Archway sibling. Please have your Prep sibling meet them at the Library. Together, they can proceed to the designated "Prep with Archway Sibling" driveline for pick-up. Please note that you must be in the designated "Prep with Archway Sibling" driveline for your Archway student's placard number to be entered and for them to be sent to the library to meet their Prep sibling.

LYCEUM

After second period, students enjoy a 20-minute Lyceum break. During this time, they have the option to visit a teacher's classroom for focused study or homework assistance, or head outside to enjoy some active play and fresh air. Lyceum provides a valuable opportunity for students to catch up on academic work or recharge by running around and having fun with friends.

HOUSE SYSTEM

Lincoln students are divided into four houses. Each house has its own color, virtue, crest, and motto. Our house system is designed to foster community, promote healthy competition, and encourage joy and creativity at school.

At our first assembly of the year, 6th-grade students will be ceremoniously sorted into one of the four houses: Equus, Leo, Ursus, or Aries. Once sorted, students are encouraged to proudly wear their house shirts every Wednesday to earn points and show their spirit! Which house will your student be sorted into?!

7TH HOUR OPTIONS

The final period of the day, known as 7th Hour, offers students a dedicated time for growth and exploration. Depending on their schedule, students can engage in a structured study hall, receive targeted academic support, or participate in an exciting enrichment course. Options for enrichment include theater, sculpting, robotics, and many more creative and engaging activities.

If your student opts not to enroll in an enrichment course, they will automatically be placed in a study hall to focus on their academics. Stay tuned for more information this summer about how to register for a 7th Hour course!
